## NEW ZEALAND FARMED DEER LEATHER COLLECTION

Our customers describe New Zealand Farmed Deer Leather as the 'silk' of leather.

From the moment your customers touch New Zealand Farmed Deer leather they will fall in love with its incredible silkiness.

New Zealand Farmed Deer leather is renowned for its incredibly soft, warm, luxurious touch, and its remarkable light weight provides unmatched drape.

SOFTNESS

## NEW ZEALAND FARMED DEER LEATHER COLLECTION

Sometimes our partners are surprised to hear that we are able to supply your New Zealand Farmed Deer leather in a full range of substance (thickness).

Our leather is available in your choice of substance, from as low as 0.5mm for garments, up to 1.8mm for bags and accessories.

Deer leather is incredibly light in weight, meaning your bags will be feather light, while maintaining the structure and substance to showcase the natural character in your articles.

## NEW ZEALAND FARMED DEER LEATHER COLLECTION

Each piece of New Zealand Farmed Deer leather measures approximately 12.75 square feet. This is far larger than hides from wild American deer.

The large size of our hides gives you larger cutting panels, much greater cutting flexibility, and improved cutting efficiency.

Greater cutting efficiency means greater margins for your business.

## NEW ZEALAND FARMED DEER LEATHER COLLECTION

Your leather is grown by New Zealand's very best farmers, on the most pristine natural pastures you will find anywhere in the world.

The stewardship of our farmers strengthens your reputation and provides you with unique and authentic stories of origin.

We work together with New Zealand's deer farmers to uphold the reputation of your brand, to give your customers peace of mind, and for the sustainable future of generations to follow.

Don't just take our word for it, we would be very happy to introduce you to our farmers so you can see for yourself.
